RED BOX™

CIRCUIT PROTECTION ASSORTMENT

Great Service, Less Inventory

From **Littelfuse®**, the leading supplier of circuit protection solutions worldwide.

Now you can meet virtually all your customers' circuit protection requirements without making a major investment. ***Red Box™*** is the newest, most comprehensive circuit protection assortment available to the aftermarket.

Designed by Littelfuse®, it features the exact OEM parts used for the glass, ATO®, MINI®, MAXI, PAL, JCase®, low profile MINI®, MCASE, MICRO2 and MICRO3 fuses installed on over 98% of the cars, vans, light trucks and SUV's on the road today. All come packed inside one compact, portable, organized carrying case. With ***Red Box™***, your days of wasting valuable shelf space on redundant part numbers is over. Over 500 fuses inside ***Red Box™*** meet over 98% of the market's circuit protection needs, giving you more coverage and more profit with a lot less inventory.

Behind every ***Red Box™*** is a support team unparalleled in the automotive industry. You get answers, not excuses, from customer service reps who know your business. You get experts in fuseology who can help your counter personnel better understand your customers' circuit protection needs. They are all part of Littelfuse® - the only company that has introduced every new fuse in the automotive industry over the past two decades.

More profit, less inventory and great service add up to the kind of performance you should expect from the industry leader.
