

PROTECTING SOLAR INVESTMENTS

SPF Series 10 x 38mm Solar Rated Fuse

For UL and IEC Standards for 1000Vdc
with full range performance. RoHS
Compliant 1-30 Amp

LPSM/LPHV Touch Safe Holders

DIN Rail mount. UL Recognized
for 600V Self-Certified for 1000V.
RoHS Compliant 30 Amp

SPFR Solar Fuse and Fuseholder

UL Recognized 1000Vdc
full range, fast acting.
RoHS Compliant 250 – 400 Amp

IDSR/LDC Fuses and Fuseholder

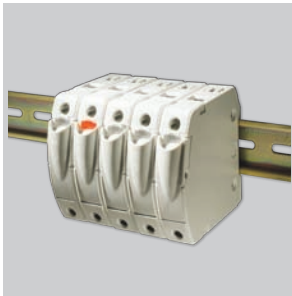

UL Listed indicating fuse
600Vdc indicating with a
full range performance.
1/10 – 2000A

PGR-2601 DC Fault Relay

Ground fault protection up to 1000Vdc
for use in ungrounded systems.

1- to 20mA trip setting

Up-LINK Fuseholders

UL Recognized touch safe holders
provide remote indication and can be
used for detecting ground-faults in
grounded systems

TVS Diodes

Overvoltage protection, up to 3,500
Vdc with maximum energy 10,000 J
and maximum peak current 70,000 A.

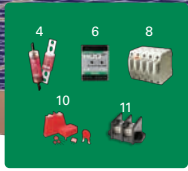

Varistor Products

Overvoltage protection to
diverts transients away from
sensitive components

Products to Protect Solar Applications

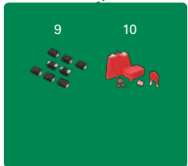

1. SPFR Solar Fuse and Fuseholder
2. SPF Solar Rated Fuse
3. LPHV/LPSM Touch-Safe Fuseholders
4. IDSR/LDC Fuse and Fuseholder
5. KLKD Midget Fuse
6. PGR-2601 DC Ground-Fault Relay
7. Busbar for LPSM/LPSC Fuseholder
8. Up-LINK Remote Indication Fuseholder
9. TVS Diodes/SCR's
10. Varistor Products
11. Power Distribution Blocks
