

**CALL TODAY  
FOR YOUR FREE  
INVENTORY  
ANALYSIS!**

- Are you using the most current-limiting fuses to reduce electrical hazards in your facility?
- Are some of your fuses obsolete and potentially unsafe?
- Is your critical production equipment adequately protected?
- Are you carrying excessive or duplicate fuse inventory?
- Is your purchasing department unknowingly ordering replacement fuses when you already have equivalent fuses in your storeroom?

## INCREASE SAFETY WITH MROplus™

If you don't know the answers to the questions above, Littelfuse's MROplus program can help...

Simply send us a list of your current fuse inventory and we will provide you with a detailed report, identifying opportunities to improve safety and save money.

### Your detailed reports will include:

- A streamlined current-limiting fuse inventory recommendation that can lower electrical hazards.
- A guide to reducing electrical hazards within your facility.
- An annual cost savings estimate based on inventory reduction.
- A cost savings estimate based on using Littelfuse Indicator® fuses, proven to reduce downtime.
- A detailed cross reference guide.
- A coupon for free customized inventory bin labels.

### With MROplus, you will:

- Obtain superior circuit protection to safeguard personnel and equipment.
- Eliminate obsolete non-current-limiting fuses to increase safety.
- Reduce inventory and costs.
- Organize fuse inventory to minimize confusion and save time.

## Act Now. It's FREE and Easy!

All you need to do is e-mail an Excel file of your fuse inventory to [techline@littelfuse.com](mailto:techline@littelfuse.com) or to your local sales representative. We will do the rest!
