

CUSTOMER DRAWING

<u>Revision Control Record</u>			
Rev.	Description of Change	ECN No.	Date
A	NEW CUST. DWG	04018	01/14/04

NOTES:

1. MATERIAL: P.V.C. BLACK

81356	0.700	0.750	BLACK
PART NO.	A	B	COLOR

Tolerances. Unless otherwise specifically noted, the following are default tolerances:

- 2-place Decimal Dimensions $\pm 0.02"$
- 3-place Decimal Dimensions $\pm 0.005"$
- Angular Dimensions ± 1.0 Deg.
- Metric: Refer to equivalent English Dimension Tolerances

*** NOTE: All tolerances are Non-Cumulative. ***

Dimensional Units All dimensions are expressed in inches except those shown in brackets (xx.x) are expressed in millimeters

"REF." or an Asterisk (*) = Non-Toleranced Reference Dimension, shown for clarification purposes only.

PROPRIETARY INFORMATION: This Engineering Drawing, and the information contained herein, is proprietary to Cole Hersee Company and may not be disclosed, re-produced, or in any other way transferred or communicated to any other party without the express written consent of an authorized representative of Cole

DESIGN CONTROL. It is the responsibility of the individual using /
referencing this drawing to ensure that the noted design revision
level agrees with the revision level of the Controlled Document
(Master Drawing). This is a NON-CONTROLLED DOCUMENT unless
otherwise specifically noted.

DO NOT SCALE. Dimensional variation may occur during printing /
reproduction.

Special Characters:

 Critical Characteristic, relating to Safety and/or Regulatory Compliance

	☒ Significant Characteristic relating to Process Control (BPC)
1. The process is controlled by a computer system.	
2. The process is controlled by a manual operator.	
3. The process is controlled by a combination of computer and manual control.	
4. The process is controlled by a combination of computer and manual control, with the manual operator having the final authority.	
5. The process is controlled by a combination of computer and manual control, with the computer having the final authority.	
6. The process is controlled by a combination of computer and manual control, with the manual operator having the final authority, but the computer has the ability to override the manual operator.	
7. The process is controlled by a combination of computer and manual control, with the computer having the final authority, but the manual operator has the ability to override the computer.	
8. The process is controlled by a combination of computer and manual control, with the manual operator having the final authority, but the computer has the ability to override the manual operator, and the manual operator has the ability to override the computer.	
9. The process is controlled by a combination of computer and manual control, with the computer having the final authority, but the manual operator has the ability to override the computer, and the computer has the ability to override the manual operator.	
10. The process is controlled by a combination of computer and manual control, with the manual operator having the final authority, but the computer has the ability to override the manual operator, and the manual operator has the ability to override the computer, and the computer has the ability to override the manual operator.	

(KC) Key Characteristic relating to Form - Fit - Function as defined by Cole Hersee Company and/or the Customer

(Note that the identification of any Characteristics as being "Special" does not alter the requirement that ALL specified dimensions & tolerances must be met.)
