

SDA Series

Low Profile DIP Switches

Specifications

Contact Rating	25 mA @ 24 VDC or 100 mA @ 5V DC
-----------------------	----------------------------------

Mechanical Specifications

Mechanical and Electrical Life	1,000 cycles at rated loads
Contact Resistance	50 mΩ max. initial
Insulation Resistance	100M Ω between terminals
Dielectric Withstanding Voltage	300 V DC min. for 1 minute

Environmental Specifications

Storage Temperature	-40°C to 85°C
Operating Temperature	
Operating Force	800 grams max.

Process

Soldering	Dip and look solderability testing per C&K spec. #448. Unplated edges of terminals permitted.
Packaging	Switches supplied in rigid dispensing tubes in full tube quantities only, this may affect order quantity. Numbers of switches per tube varies with model. Tape and reel packaging also available for surface mount options.

Description

SDA series low profile DIP switches are used by designers as address switches for industrial controls, for logic switching in computers and peripherals, and for function controlling in numerous additional applications. The low-profile design of the switches save space and are available in thru-hole and surface mount models, with tape and reel packaging available.

Features & Benefits

- Low profile design saves space
- Thru-hole and surface mount models
- Tape and reel packaging available
- RoHS compliant

Applications

- Address switch for industrial controls
- Logic switching for computers and peripherals
- Function controlling for numerous applications

Materials

Housing & Cover	PPS, color black (UL94V-0)
Actuator	PA6T (UL94-0)
Contacts	Gold plated Beryllium copper
Terminals	Gold plate over nickel plated brass
Tape Seal	Polyimide

Note: Specifications and materials listed above are for switches with standard options. For information on specific and custom switches, consult Customer Service Center. For Tin Lead options consult customer service center.

SDA Series

Low Profile DIP Switches

Ordering Number

Our easy build-a-switch concept allows you to mix and match options to create the switch you need. To order, select desired option from each category and place it in the appropriate box. All switches supplied in "OFF" position.

Flush Actuator – No Tape, Thru-hole Terminals
