Littelfuse LPF Series is a common mode noise filter that covers the specification of the requirements for high-speed differential serial interfaces, corresponding to new high-speed data transmission specification, like C-PHY.

**Features & Benefits**

- Effective for suppressing common mode noise and almost no effect for high-speed differential data line
- Ultra-small size as low as 0.90 X 0.68 X 0.45 mm
- Ceramic based SMD component
- Non-polarized product
- Conforming to RoHS directive
- Ultra-small size
- High voltage

**Applications**

- Mobile phone and tablet
- Portable/wearable devices
- Other consumer devices

## Recommended Land Pattern

### Notes:
1. Reel Materials: Polystyrene
2. Label
3. Taping
   - Standard Packing Quantity per Reel (Ø178)
   - Paper Tape: 10,000 pcs/reel
