Description

The Low Profile JCASE[®] fuse has similar performance characteristics as the standard JCASE[®] fuse. The lower overall height reduction allows for more space and weight savings and also allows for a shorter male blade terminal, saving additional weight and material savings in fuse box designs.

Features & Benefits

- Color coding shows the amperage rating for each fuse
- High-contrast amperage stamp on the top of the housing aids identification
- Semitransparent cover makes it easier to see when fuse blows
- Compact design

Applications

- Cars & SUVs
- Trucks
- Offroad vehicles
- Buses
- Watercraft as approved by Littelfuse[®]
