

### ATO® (Autofuse®) Blade Fuse

Patented and introduced in 1976 by Littelfuse, it became the international fuse standard by 1981. It is currently found on most cars, trucks, buses and off road vehicles worldwide. Features Littelfuse designed industry standard color coding to indicate amp rating.

**Voltage Rating Characteristics:** 32V AC/DC Fast-Acting

**Approvals:** UL listed, CSA certified 3-30A, SAE J1284.

| Color Code |        | US & Canadian<br>Boxed No. | US<br>Carded No. | Canadian<br>Carded No. |
|------------|--------|----------------------------|------------------|------------------------|
| Black      | – 1A   | ATO 1                      | ATO 1 BP         | ATO 1 CABP             |
| Gray       | – 2A   | ATO 2                      | ATO 2 BP         | ATO 2 CABP             |
| Violet     | – 3A   | ATO 3                      | ATO 3 BP         | ATO 3 CABP             |
| Pink       | – 4A   | ATO 4                      | ATO 4 BP         | ATO 4 CABP             |

### MINI® Blade Fuse

Patented and introduced in 1989 by Littelfuse to meet the OEM need to protect a greater number of circuits without utilizing more space. Features silver plated blades and Littelfuse designed industry standard color coding to indicate amp rating.

**Voltage Rating Characteristics:** 32V AC/DC Fast-Acting

**Approvals:** SAE J2077.

| Color Code |        | US & Canadian<br>Boxed No. | US<br>Carded No. | Canadian<br>Carded No. |
|------------|--------|----------------------------|------------------|------------------------|
| Gray       | – 2A   | MIN 2                      | MIN 2 BP         | MIN 2 CABP             |
| Violet     | – 3A   | MIN 3                      | MIN 3 BP         | MIN 3 CABP             |
| Pink       | – 4A   | MIN 4                      | MIN 4 BP         | MIN 4 CABP             |
| Tan        | – 5A   | MIN 5                      | MIN 5 BP         | MIN 5 CABP             |

### MAXI™ Blade Fuse

MAXI Fuses are primarily used for under hood applications and are produced with a high temperature polymer and silver plated blades. They replace the commonly used fusible wire or fusible link to protect a high current segment or system of the wiring harness. Features Littelfuse designed industry standard color coding to indicate amp rating.

**Voltage Rating Characteristics:** 32V AC/DC Slo-Blo

**Approvals:** SAE J1888.

| Color Code |       | US & Canadian<br>Boxed No. | US<br>Carded No. | Canadian<br>Carded No. |
|------------|-------|----------------------------|------------------|------------------------|
| Yellow     | – 20A | MAX 20                     | MAX 20 BP        | MAX 20 CABP            |
| Green      | – 30A | MAX 30                     | MAX 30 BP        | MAX 30 CABP            |
| Orange     | – 40A | MAX 40                     | MAX 40 BP        | MAX 40 CABP            |
| Red        | – 50A | MAX 50                     | MAX 50 BP        | MAX 50 CABP            |
