SPECIALIZED TOGGLE SWITCHES

Description
Littelfuse Toggle Switches are designed for universal applications within harsh environments. Their mounting, body, and actuator features are designed for ease-of-use and extended product lifecycle.

Specialized Toggle switches have non-traditional geometries and features that make them appropriate for unique applications.

Specifications Overview

Mounting: Black Finished Face Nut through 15/32 (11.90mm) Panel Hole
Part Number M-597: Plastic Bezel over 2.73 / 2.11" Oval

Housing: Black Plastic with Plated Steel

Features and Benefits

- Silver contacts for corrosion resistance

Applications

- Construction Equipment
- Agricultural Equipment
- Material Handling Equipment
- Commercial Vehicles
