Description
Suitable replacement for connectors in tarping applications and emergency battery boosting, without the need to raise the hood. Vertically-aligned machined brass contacts, diecast zinc plug and socket housings, engineering-grade plastic insulator. Terminations accept 6AWG wire and are polarized.

Durable, flexible spring coil protects plug cable. Gasket-sealed socket door keeps out dirt and moisture when socket is not in use.

Features and Benefits
- OEM and Aftermarket replacement for connectors in electric tarping applications.
- Provides a high-integrity two-circuit path for on- and off-road vehicles and in agricultural applications.
- Prevents accidental disconnection: plug latches mechanically with the socket cover.

Also Available

- **Single Pole Connector**
  - Power take-off. 11041 self-grounding socket and 11042 plug.

- **Single Pole Connector with External Ground**
  - 11157 socket and 11156 plug. Provides an external ground where grounding cannot be obtained through the vehicle frame.

- **75712-04 Rotary DPDT Switch**
  - Heavy duty switch for forward-reverse applications such as tarp control, tailgates, winches 12-36V DC. Request sheet D-590 for details.

- **24450 Reversing Solenoid**
  - Intermittent duty DPDT 75A 12V DC. With dynamic brake. Plastic housing. Request sheet D-595 for more information on plastic housing solenoids.

- **24401 Solenoid**
  - Continuous duty SPDT 12V DC, insulated. Use two solenoids in tandem for motor reversing. Also Available as 24V (24402) and 36V (24400).
