BMZ SERIES BATTERY MOUNT ZCASE® FUSE HOLDER KITS

Littelfuse is excited to introduce two BMZ Series Battery Mount ZCASE Fuse Holder Kits. It is now easier than ever to order and resell the BMZ series.

- Mount High-Current Fusing Directly to a Post-Style Battery
- No Special Hardware Needed With Insulated Bolts = No Special Nuts Required!
- Available in 2- and 3 Way Outputs

The BMZ has insulated bolts eliminating the traditional need for nylon nuts. All proprietary ZCASE fuses can be assembled using standard M8 threaded hardware, now included in the kits.

For more information and to download the datasheet, 2D Print and 3D Model, visit: **littelfuse.com/BMZ**

Please contact your Littelfuse Sales Representative for a sample product and available pricing.

2-Way BMZ Series ZCASE Fuse Holder Kit
Part No: 0FHZ00854 - BX

2-Way BMZ Kit Contents:	
2-Way Busbar	1 Piece
Battery Terminal	1 Piece
Red Rubber Cover	1 Piece
M8 Flange Nuts	3 Piece
M8 Bolt	1 Piece
Installation Instruction	1 Piece

3-Way BMZ Series ZCASE Fuse Holder Kit
Part No: 0FHZ00853 - BX

3-Way BMZ Kit Contents:	
3-Way Busbar	1 Piece
Battery Terminal	1 Piece
Red Rubber Cover	1 Piece
M8 Flange Nuts	3 Piece
Installation Instruction	1 Piece

Related Products

ZCASE® • 40-600A • Bolt-Down Fuses

The Single ZCASE is a bolt down fuse with a wide rating range up to 600A. The Time Current characteristic is similar to the well known MEGA® design and can used as full wire protection until 250A. Higher ratings typically used for starter fuse.
