

INLINE MIDI® FUSE HOLDER

200A • 32V DC Max • MIDI®

Description

The Inline MIDI fuseholder is designed for use with bolt-down MIDI style fuses. It may be installed directly inline with the cables with no mounting required.

The Inline MIDI fuse holder can be used with heat shrink tubing for applications requiring more splash resistance. The curved design of the cover aids in prevention of tube-splitting during application.

Features and Benefits

- Provides high amperage, in-line, main or branch circuit protection in harsh or hazardous environments.
- Install directly inline with battery cable, no mounting required saving time and space.
- Can be used with heat shrink tubing for applications requiring more sealing and splash resistance. (sold separately)
- Curved design of the fuse holder cover aids in prevention of tube-splitting during application.
- All steel hardware is zinc-plated for long-term corrosion protection.
- Available with or without the cover to meet the needs of the installation requirements.

Specifications

Max. Voltage Rating:	32V DC
Max. Fuse Rating:	200A
Operating Temperature Range:	-40°C to +125°C
Max. Wire Size:	20mm ²
M5 Torque Rating:	5Nm
Base/Cover Material:	UL 94V-0 glass-filled nylon
M5 Bolt Material:	Zinc-plated
M5 Nuts:	Zinc-plated with nylock inserts

Recommended Fuse
